## 1. INTRODUCTION

The SDBIP gives effect to the Integrated Development Plan (IDP) as well as the budget of the Municipality. The budget gives effect to the strategic priorities of the municipality and is not a management or implementation plan. The SDBIP is therefore a link between the administration, council and community expressing the goals and objectives set by the council as quantifiable outcomes that can be implemented by administration over the next 12 months. The diagram below depicts the relationship:

The Service Delivery and Budget Implementation Plan (SDBIP) provides the link between the mayor, council(executive) and the administration, and facilitates the process for holding management accountable for its own performance. Ramotshere Moiloa Local Municipality uses this tool to assist the mayor, councillors, municipal manager, senior managers and community to implement and monitor performance.

Information provided in the SDBIP enables the municipal manager to monitor the performance of senior managers, the mayor to monitor to monitor the performance of the senior managers and the community to monitor the performance of the municipality. The SDBIP therefore determines the (and will be consistent with) performance agreements between the mayor and the municipal manager and municipal manager and the senior managers for the 2019/20 financial year.

## **2. REPORTING ON SDBIP**

This section covers reporting on the SDBIP as a way of linking the SDBIP with the oversight and monitoring operations of the Municipal administration. Various reporting requirements are outlined in the MFMA. Both the Executive Mayor and the Accounting Officer have clear roles to play in preparing and presenting these reports. The SDBIP provides an excellent basis for generating the reports for which MFMA requires. The reports then allow the Mayor to monitor the implementation of service delivery programs and initiatives.

### ***2.1. Monthly Reporting***

Section 71 of the MFMA stipulates that reporting on actual revenue targets and spending against the budget should occur on a monthly basis. This reporting must be conducted by the accounting officer of a municipality no later than 10 working days, after the end of each month. Reporting must include the following:

- I. Actual revenue, per source;
- II. Actual borrowings;
- III. Actual expenditure, per vote;
- IV. Actual capital expenditure, per vote;
- V. The amount of any allocations received

If necessary, explanation of the following must be included in the monthly reports: (a) any material variances from the municipality's projected revenue by source, and from the municipality's expenditure projections per vote (b) any material variances from the service delivery and budget implementation plan and; (c) any remedial or corrective steps taken or to be taken to ensure that the projected revenue and expenditure remain within the municipalities approved budget.

### ***2.2. Quarterly Reporting***

Section 52 (d) of the MFMA compels the mayor to submit a report to the council on the implementation of the budget and the financial state of affairs of the municipality within 30 days of the end of each quarter. The quarterly performance projections captured in the SDBIP form the basis for the mayor's quarterly report.

### ***2.3. Mid-year Reporting***

Section 72 (1) (a) of the MFMA outlines the requirements for mid-year budget and performance assessment reporting. The accounting officer is required by the 25th January of each year to assess the performance of the municipality during the first half of the year taking into account:

- (i) The monthly statements referred to in section 71 of the first half of the year
- (ii) the municipalities service delivery performance during the first half of the financial year, and the service delivery targets and performance indicators set in the service delivery and budget implementation plan;
- (iii) The past year's annual report, and progress on resolving problems identified in the annual report; and
- (iv) The performance of every municipal entity under the sole or shared control of the municipality, taking into account reports in terms of section 88 from any such entities.

Based on the outcomes of the mid-year budget and performance assessment report, an adjustments budget may be tabled if actual revenue or expenditure amounts are materially different from the projections contained in the budget or the SDBIP.

#### ***2.4. Annual Performance Reporting***

In terms of Municipal Systems Act No. 32 of 2000, Section 46 requires municipality to prepare for each financial year a performance report reflecting:

- (a) The performance of the municipality and of each external service provider during that financial year
- (b) A comparison of the performances referred to in paragraph (a) with the targets set for and performances in previous financial year; and
- (c) Measures taken to improve performance

The annual performance report must form part of the municipality's annual report in terms of Chapter 12 of the Municipal Financial Management Act

### **3. MUNICIPAL LEADERSHIP AND MANAGEMENT STRUCTURE**

#### **3.1. Political Leadership**

The following is the political leadership of the Municipality

<b>PORTFOLIO</b>	<b>NAME</b>
Municipal Mayor	CLLR K Mothoagae
Municipal Speaker	CLLR A. N. Nyamane
MMC Corporate Services	Cllr L. J. Selebogo
MMC Finance	Cllr L. Motsokwane
MMC Community Services, Municipal Planning and Development	Cllr B. G. Monamodi
